

Please drive cautiously and slowly when driving on the roads around Canada Lake this summer.

BOAT SAFETY REMINDER

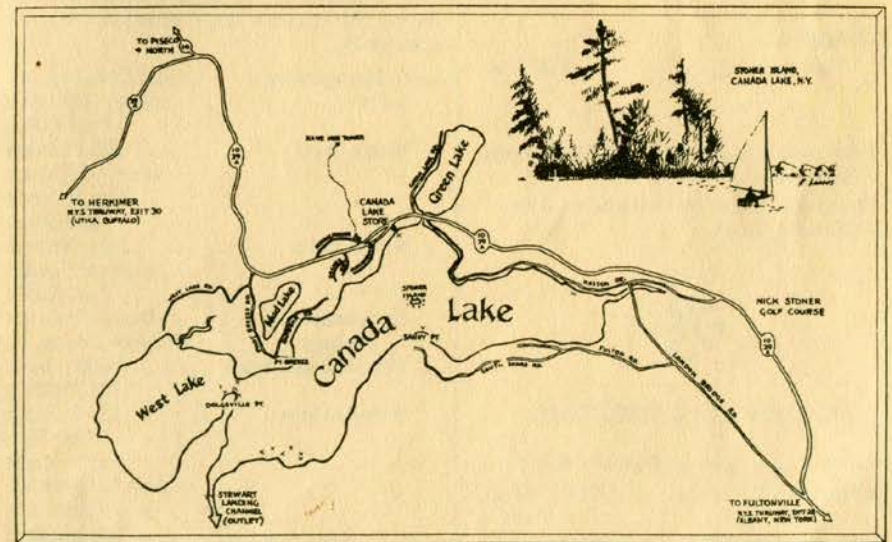

Be sure you have a boat cushion for each person on board at all times.
 Running lights after sunset.
 Be on the lookout for floating logs, boards, etc.
 Please have a safe summer!

SUMMER - 1982

x's on map indicate approximate location of rock hazards in lake. Caution is advised when boating in the vicinity of any indicated hazard.

SCHEDULE OF EVENTS SUMMER - 1982

JULY

3**	Flare Lighting	9:30 P.M.
3	General Open Sailing Club Meeting - Young's Camp	10:00 A.M.
10	C.L.P.A. Directors Mtg. Fiedler's Camp	9:30 A.M.
13	Luncheon & Card Party Nick Stoner Inn	12 Noon
17	Annual C.L.P.A. Meeting Caroga Lake Firehouse	8:00 P.M.
18	"Greenup Day"	
24	Sailing Awards for July Series & Pot Luck Dinner Location to be announced	5:00 P.M.

AUGUST

7	C.L.P.A. Directors Meeting Fiedler's Camp	9:30 A.M.
22*	Boat Parade (Rain date Aug. 29)	2:30 P.M.
28	Sailing Awards Party Young's Camp	5:00 P.M.

SEPTEMBER

5**	Flare Lighting	9:00 P.M.
-----	----------------	-----------

* Boat parade begins at Arden Zipp's camp, Fulton Road

** Please light flares when flares are lighted on Stoner Island

1982 OFFICERS & DIRECTORS

President	Howard Fiedler	835-4351
Organization VP	Jack Fielding	835-6061
Lake Management VP	James Kennedy	835-4232
Youth Activities VP	Donald White	835-8560
Secretary	Emily Langworthy	
Treasurer & Budget Director	Rick Fink	835-6059

Directors and Term:

3 years	Howard Fiedler	835-4351
	Bill Fielding	835-6069
	Rick Fink	835-6059
	Harry McIntosh	835-4103
	Tim Mitchell	835-6694
	John Sowle	835-4209
	Sue Widdemer	835-4246
(alternate)	John Widdemer	
2 years	David Hoffman	835-6056
	Jim Kennedy	835-4232
	Emily Langworthy	
	Don White	835-8560
	Courtney Young, Jr.	835-3701
	Arden Zipp	
1 year	Bill Bates	835-4170
	Rusty Capece	835-4052
	David Fisher	835-2527
	Peg Miller	835-6870
	Ernest Mueller	835-4047
	Bill Peck	835-6879
	Bud Ryan	835-2534
	Ethel Theisen	835-2516

PRESIDENT'S MESSAGE

After a rigorous winter, all of us were probably more anxious than usual to see the ice off the lakes this spring. That desire was apparently shared by a flock of Canada geese we saw enjoying a patch of open water off Dolgeville Point on April 25th. We took it as a good omen - being told that Canada geese are only infrequently sighted on Canada Lake.

The crucial ingredient in any organization is people. My memory of people cheerfully going about their CLPA chores last summer is a vivid one. Green-Up Day, the preparation at Paul Kukla's lot for liming Green Lake and finally the liming itself were big jobs made doable by the enthusiasm of the participants. Names and phone numbers of your committee chairpersons are listed in the Echo. Pick a committee to work on and call the chairperson - volunteers are their favorite people.

I'm looking forward to seeing you at the Annual Meeting on July 17th.

Howard Fiedler Pres., CLPA

ECHOES

Note from Dorothy Robertson:

Dorothy Robertson has recently returned from a two months stay at Myrtle Beach, S.C. She is looking forward to enjoying the summer months at the family camp on Kasson Drive.

Nancy Gittelson, the daughter of Dorothy and the late Sidney Robertson is a free lance fabric designer specializing in original Batik designs. Her studio is located in Tully, N.Y. She will be displaying her craft designs in several north eastern arts and crafts fairs this summer. Nancy's work is described in a chapter of a recently published book, "Crafts - A Career Alternative" by Carol Kushner. Nancy is a graduate of Harpur College in Binghamton, N.Y.

Joseph, the Robertson's son is a physical therapist orderly - working in the Lake Worth area of Florida.

News from the Deckers:

Susan E. Decker, daughter of Mr. and Mrs. Robert Decker and granddaughter of Mr. and Mrs. Floyd G. Decker, and a former employee of the Canada Lake Store, is to be graduated from Skidmore College on May 23rd.

Note from Ann Delorier:

Rilla and I plan to camp our way to the west coast this summer. Our trip will include the Grand Canyon, Los Angeles, San Francisco, Yosemite, Yellowstone, Jackson Hole, the Badlands, Bighorn, the Black Hills and Niagra Falls before ending at Canada Lake by the middle of August.

News from the Yuenger camp on Hutchinson Road:

Charlie, Barbara, Francine and Billy Michaels spent Christmas week at Canada Lake.

Dan, Lyn, Kristin and Luke Yuenger visited them while they were there.

Kristin Yuenger was in the National Horse Show at Madison Square Garden. She placed first in Class 5 Junior Exhibitor Three - Gaited Saddle Horse division!

Dorothy Yuenger arrived April 21 from Mesa, Arizona to spend her 35th year at Canada Lake.

John, Mary-Jane, Elizabeth and Sue Barlow are all looking forward to spending vacation days at the Comrie Camp with Elizabeth in New Hampshire, Susan in

Colorado and Mom and Dad in the heartland of Iowa. We will truly have a gathering of the clan, visiting Howard and Charlotte Comrie at Beautiful Canada Lake.

Note from Kerr-Fink Family:

News from Kerr-Fink family includes 2 newcomers to the South Shore younger set. Twin daughters born to Nancy Fink Myers last September in Colorado Springs. They will join Cristine (3½), Bryan David (1½) Fink this summer or next, at the Lake. We had a wonderful family reunion in February with all 7 children, spouses and grandchildren with us — some of whom had a Washington's Birthday picnic at camp. We're all looking forward to summer fun and friends.

Mr. and Mrs. Guy Mills, Delanson, N.Y. are parents of a daughter, born February 27, in St. Peter's Hospital, Albany.

The infant has been named Rachael Pauline. Mrs. Mills is the former Judith Watson, daughter of Mr. and Mrs. Russell Watson, RD 3, Little Falls. Mr. Mills is the son of Mr. and Mrs. E. Brown Mills of Old Forge, formerly of Little Falls.

Mr. and Mrs. Curtis Case, of Canada Lake, became parents of a son on Saturday, March 20, in Bellevue Maternity Hospital, Schenectady. Mrs. Case is the former Miriam Feldstein of St. Johnsville, daughter of Mrs. Catherine Feldstein and the late Dr. Bernard Feldstein. The eight pound, six ounce baby has been named Isaac Feldstein Case.

New from the Ronald Buchner's:

Our son, Bruce Buchner, M.D. will leave S.U.N.Y. at Stony Brook in Long Island and complete a three year residency in Internal Medicine at the Berkshire Medical Center, Pittsfield, Massachusetts. He and his wife Mary (Bartyzel) have bought a new home there.

Our other two doctors, Major Bonnie Buchner Baswell, M.D. and her husband Lt. Colonel David Baswell, M.D. in the U.S. Army will be transferring from Buffalo Children's Hospital to Fort Sam Houston, San Antonio Texas.

Our daughter Sherry and husband Howard Kenney III have a year old son called "Brian James." Sherry teaches French in Middleton, Massachusetts.

Our daughter Denise and husband Richard Leszczenski just purchased a new home in Pittsford, NY. Denise is with the Singer Sewing Machine Company and Rick is a Computer Programmer for Eastman Kodak.

The following is a note sent to us from Minot Osborn re-capping the CLBO reunion, winter 1982:

The February 12th triple holiday weekend was the scene of the 2nd annual CLBO Winter Reunion. (CLBO of which you may be familiar, is a social offshoot of the CLPA) Members and friends converged from all over to celebrate the coming of Summer and to be reunited with the fine Canada Lake crew.

The Friday evening rendezvous point was the always popular Pine Lake Lodge. As folks rolled in throughout the evening, conversation was lively as the past five months were caught up on. The Flash-o-matic bowling wizzards were fervently shooting for that red strike zone to qualify for the cherished "6000 High Bowlers Club." As the morning grew late, CLBO's (pronounced Clē-bōs) headed off for a rest; some upstairs, some to partially or fully heated camps at the Lake, and still some to remote unheated snowed-in locations.

Saturday rolled in with some light snow and moderate temperatures. CLBO's were seen hiking or snowmobiling around the Lake to savor the incredible surroundings and to catch up with the late arrivers. Tom, with Pine Lake Lodge, commemorated the occasion with a large bonfire and a complementary keg of brew that evening.

On Sunday morning, Dorothy and Bill once again graciously opened their home to the *entire* gang for a fabulous breakfast complete with Bloody Marys and Screwdrivers. After breakfast it was off to enjoy the 45° plus temperatures and sunny skies with some skiing and hiking. Sunday evening turned into a dance and sing-along with Will, Deb, and Billy, of Pine Lake Park fame, performing at Pine Lake Lodge to the wee hours of the morning.

On Monday morning after breakfast and a massive snowball war, it was time to say goodbye and farewell until Summertime. T'was an enjoyable reunion of friends. Mark your calendars now for another crazy weekend next February. . .

Deonie Bates and Edward Finkbeiner were married on October 10, 1981 in Our Lady of Mt. Carmel Church, Charlotte, Vermont with a reception immediately following the Ceremony at the Basin Harbor Club. Vergennes, Vermont. Deonie graduated from St. Michaels College, Winooskie, Vermont and is employed by the Shelburne Museum as director of programs and Guides. Edward gradu-

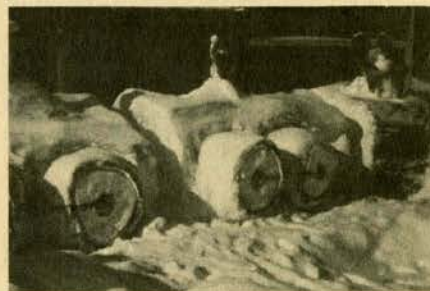

ated from R.I.T., Rochester, New York and received his masters degree from U. Vermont. He is manager of strategic planning for G.E. Co., Burlington, Vt.

Jeff Bates will be working at the Colony Hotel, Kennebunkport, Main this Summer.

Ice Sculptures Created During the Canada Lake - Caroga Lake 1982 Winter Carnival

Walt Disney's Dumbo ice sculpture created by Judy Aldinger, Fritz Aldinger and the Fielding Family.

A train with Mickey Mouse, Donald Duck and Pluto was created by Mrs. Sheila Falzarine and Mrs. Ingar McDaniel. The 30 foot long sculpture was located on the museum grounds on London Bridge Road.

A 16 foot dragon from Sleeping Beauty was created by Mrs. Lucinda Solar and Ms. Patricia Purtell.

CANADA LAKE SAILING CLUB

Come Sail With Us

On every Saturday, weather permitting, and on many Sundays throughout the Summer, the Canada Lake Sailing Club holds races. You do not have to be an expert sailor to enjoy sailing with us. There are two divisions in the Sunfish class, one for experienced sailors and one for those learning to sail. We also have a fleet of Super Sunfish for those looking for a greater challenge. We hold specialty races; the Olde Tymers Race for those over 40, Fun Races, Team Races and our annual Fourth of July Race. Besides sailing, our club also sponsors a Pot Luck Dinner on July 24th and a party on August 28th.

Please join us at our General Membership Meeting July 3rd at 10 AM at Court Young's Camp on Dolgeville Point. If you need transportation, please call 835-3701. Come register your boat and bring a friend! Dues will be \$4.00 for each boat.

For those of you who do not sail, but would like to participate in CLSC, we would appreciate your help. In order for the club to run smoothly, people are needed to start the races, score the races, and drive the safety boats. If you are interested or know of someone who is, please contact Nancy Young at 835-3701 or talk to any of our members.

Ryan/Curran Trophy Awarded to Courtney Young, Jr.

The Olde Tymers Race was held on one of the roughest days in the season — the wind was strong and the waves were high! Courtney Young, Jr. finished first, but all those participating, Charlie Michaels, Doug Leaf, John Castilleux and Dick Loomis deserve congratulations for being there on such a day!

Special Races Sailed in 1981

The Fourth of July Race was held on Saturday, July 4th with eleven boats participating. Two races were sailed with Don White first and Rick Fink second in A Division, Anne Delorier first and Parker Davis second in B Divisions, and Courtney Young, Jr. first and Dick Loomis second in the Super Sunfish class. Trophies, donated by Bill Fielding, are presented at the annual CLPA meetings.

The Sunfish Team Races were held on Sunday, August 2nd, with nine boats attending. There were three teams sailing a total of four races. The winning team, composed of Dick Loomis, Nancy Long and Dorothea Loomis, was presented the Team Race Trophy at the August Awards Party. Others participating were Midge Akers, Parker Davis, Court Young, Sr., Nancy Young, Amanda Young and Darren Grassberger.

1981 Series Results

	July Series	August Series
Sunfish "A"	Court Young, Sr.	Court Young, Sr.
Sunfish "B"	Jeff Bates Parker Davis Amanda Young	Jeff Theisen Parker Davis
Super Sunfish	Court Young, Jr. Dick Loomis Nancy Long	Dick Loomis Dorothea Loomis Greg Young

Chevron Awarded to Courtney Young, Sr.

The 1981 Chevron for Fleet 315 was awarded to Court Young, Sr. for his continual good sailing in the July and August Series. Out of 17 races sailed, Court had eight firsts and five seconds. The second best Sunfish sailor was John Castilloux, followed by Dave Fisher. The chevron is awarded annually by AMF Alcott, the manufacturer of the Sunfish, to the best sailor in each fleet throughout the world.

Second Annual Sunfish/Super Sunfish Regatta Held

The Second Annual Canada Lake Sunfish/Super Sunfish Regatta, hosted by the Canada Lake Store and Marina and members of the Canada Lake Sailing Club, was held on Sunday, August 9th. There were six races held in winds ranging from very, very light (almost non-existent) to strong and gusty. Both Sunfish and Super Sunfish participated in the event.

WATER SAFETY REMINDER

All Boats must have Running Lights when operating after sunset.

July series winners.

The top finishers in the Sunfish class were Chris Williams and John Williams of Delta Lake, Rome and Amanda Young of Canada Lake. Court Young, Sr., Dave Mason, Midge Akers and Parker Davis also sailed in this class.

The Super Sunfish awards went to Dick Loomis, Nancy Long and Dorothea Loomis. Geoffrey Clifford and Nancy Young also sailed in this class.

After the races and awards, a cookout was held on the beach sponsored by the Canada Lake Store and Marina.

The Third Annual Canada Lake Regatta will be held on Sunday, August 15th. After racing, awards and a picnic will be sponsored by Bill Fielding. Come and join us for an enjoyable day of sailing and fun.

Brown/Dean Trophy Award in Memory of Monty Mason

The Brown/Dean Trophy was given to the CLPA by Beverly and David Hoffman in memory of their friends, Bob Brown and Brad Dean. The trophy is to be awarded annually to an adult who "has contributed to the smooth running of the Canada Lake Sailing Club" as represented by Brad Dean and/or "has given of himself unselfishly and enriched the lives of those in the sailing club by his own sportsmanship and good will" as typified by Bob Brown.

Past winners of this trophy have been Bill Dunstan and Jack Ryan. This year the Directors of the Canada Lake Sailing Club have voted unanimously to present the Brown/Dean Trophy to the memory of Monty Mason.

Monty and Claire and their family moved to Canada Lake in the early 1960's. They immediately became involved in the CLSC by sailing their Lightning which had previously been on Sacandaga Lake. Monty was

a very meticulous and serious sailor who sailed by the rules. He worked hard to win as he frequently did. After Bill Dunstan retired as Director of the CLSC, Monty took over. He was responsible for bringing the 420 Class to Canada Lake. Even though he was sick, he was one of the first to purchase a 420 and sailed in the races to encourage others to support this class. He also contributed new large buoys which were visible from a great distance. He encouraged people to become involved in sailing and gave them a greater respect for the rules through his example. We were saddened by his death in 1973 as he had given much of himself and enriched the lives of many members of the Canada Lake Sailing Club.

Sunfish nearing finish

Bogart Trophies Awarded to Parker Davis and Jeff Bates

At the August Awards Party, Parker Davis and Jeff Bates received the Bogart Trophies. Determined by the CLSC Directors, the trophies are awarded to a member or members under sixteen who demonstrate good sportsmanship and achievement in sailing for the year. Thirteen year old Parker demonstrated determination and perseverance by sailing in 15 of the 17 series races and attending also the Team Races, Fourth of July Race and Annual Regatta. By achieving five firsts and seven seconds, he was awarded 2nd place (B Division) in both the July and August Series. Jeff Bates (17 years old), demonstrated his versatility by sailing not only a sunfish, but also the (flying tern). He sailed in eight of the total races scoring three firsts (B Division) and three seconds (B Division) receiving the 1st place trophy in July for B Division. Both of these boys will be hard to beat this year.

Social Activities for 1982

The July Awards and Pot Luck Dinner will be held on Saturday, July 24th at 5 P.M. The location will be announced at a later date. All members and their families are invited to attend. Admission is by contribution of a food dish (main, dessert or vegetable/salad). For further information, watch the Sailing Bulletin Board at the Store.

The August Awards Party will be held at Courtney Young's camp on Dolgeville Point on Saturday, August 28th at 5 P.M. Refreshments will be served. Also, a slide presentation will be made of the 1982 events of the CLSC.

Special Thanks To All Who Help Make CLSC A Success

A special thanks goes to all those behind the scenes who help make the Sailing Club run more smoothly — the duty officers, the starting committee members, the safety boat drivers and those who host our events.

We hope to see you at our General Membership Meeting on July 3rd at 10 AM at Court Young's Camp on Dolgeville Point. If you need transportation, call 835-3701. Watch the Sailing Club Bulletin Board at the Canada Lake Store for details on our events.

HAPPY SAILING!!

Your CLSC Directors:
Nancy Young, Midge Akers, Jeff Bates, John Castilloux, Parker Davis, Dick Loomis, Dorothea Loomis, Court Young, Jr.

Dick Loomis 1st place in Regatta at finish line

**CANADA LAKE SAILING CLUB
1982 CALENDAR OF EVENTS**

July 3 - General Membership Meeting
(Young's camp) 10 A.M.
Series Races 1 and 2 2 P.M.
July 4 - Annual Fourth of July Race -
Island Start 2 P.M. (Rain date, July 11)
July 10 - Series Races 3 and 4
July 17 - Series Races 5 and 6
July 24 - Series Races 7 and 8
Pot Luck Dinner 5 P.M.
(Location to be announced)

July 25 - Annual Team Races
July 31 - Olde Tymers Race (Island start
2 P.M.)
August 1 - Fun Races

August 7 - Series Races 1 and 2
August 14 - Series Races 3 and 4
August 15 - Third Annual Sunfish/Super
Sunfish Regatta 10 A.M.
August 21 - Series Races 5 and 6
August 28 - Series Races 7 and 8
Awards Party (Young's Camp) 5 P.M.

All races start at 2 P.M. unless otherwise noted.

Series races that are cancelled will be held the following day - Sunday.

Sailors must sail one more than half of the races in a series to qualify for trophies in that series.

Special races do not count toward series trophies, as there are trophies for most of these races.

TOWN OF CAROGA CHURCHES

Caroga Chapel
Starting July 4 thru Labor Day -
Sing-along at 10:45 A.M.
Services 11:00 A.M.

St. Barbara's Chapel
June: Saturdays only 5:30 P.M.
July - Labor Day:
Saturday Mass 5:30 P.M.
Sunday Mass 9:00 A.M.
..... 10:30 A.M.

After Labor Day in Sept. - same as June thru Sept. 18

BOAT PARADE

Three prizes will be awarded for the best decorated boats for the Annual Boat Parade in August.

Nancy Long and Dorothea Loomis
nearing finish line
(Sailing photos by Nancy Young)

WATER LEVEL

Please refer to the water level guage under the Green Lake bridge before installing your dock. If you allow for the proper level your dock will remain easy to use all summer long. Water level during the summer of 1981 was remarkably consistent with the agreed upon reference; 1542.8 ft. above sea level.

ENVIRONMENTAL NOTES - 1982
by Courtney D. Young, Jr.

ACID RAIN

The resolution of this problem is going to require a deep and long lasting commitment from many families on the Canada Lakes and throughout the Adirondacks. It is too early to know exactly how much was accomplished by the 26 tons of lime distributed in Green Lake last August. Hopefully we will see an increase in fish and plant life this summer! It is generally acknowledged that, while well worth trying, such operations are at best short term and temporary deterrants to ever increasing acidity in our waters. We are only buying time!

The state of the economy, Reagans budget plan, and the need for new energy sources are all applying pressures to weaken the Clean Air Act and the regulatory powers of the E.P.A. Scrubbers are not being installed while greater amounts of soft coal are being burned. The acid rain continues and grows stronger.

Think about what will happen to property values when the lakes become totally dead, the drinking water becomes dangerously loaded with heavy metals, and the soil loses its buffering ability. Will you still enjoy vacationing on our lakes? The outlook is dim and the time for action is now! Support the CLPA committee on acid rain, join the Adirondack Council and the Coalition of Adirondackers to Neutralize Acid Rain Inflow, and write both state and federal legislators. All are necessary! No half-hearted or "let them do it" response is going to work. The responsibility is with 'you'.

SPRAYING UPDATE

In the spring of 1981 the DEC stopped all larvaciding on state lands. As predicted, the towns diverted the funds previously wasted on methoxy-chlor to additional applications of dibrom. The justification and the funding has been partially related to the NYS Department of Health's stand that a health problem exists which is caused by 'mosquitoes'. The DOH has asked some very direct questions this past winter:

1. Is there an encephalitis problem in the Adirondacks? Is there a potential problem? What is the history and documentation of such a problem?
 2. If a problem exists, where does it exist and what geographical/climatic factors are involved?
 3. If a problem exists, how can adultciding in a few towns, applied randomly over limited acreage, be of significant help?
 4. Can mosquitoes be controlled by adultciding? Successful control programs concentrate on placing larvicides in stagnate water breeding grounds.
 5. Can adulticide aerially applied be kept from drifting into water bodies and drinking supplies? How is that done?
 6. If Dibrom 14 is suspected to be hazardous to human health (under study by the EPA) is not its use contradictory to the goals of the DOH?
- The inability of the DOH to offer substantial answers has led to lawsuits in 2 Adirondack towns and may lead to a Park-wide injunction against adultciding programs supported by the DOH!
- If you would like to have your name added to the list of property owners who have denied the Town of Caroga permission to spray their land, write me a note to that effect or call me at 835-3701.

CANADA LAKE GREENUP DAY

The second annual 'Greenup Day' is scheduled for Sunday July 18. Details will be announced at the annual meeting on Saturday July 17. Last summers effort was a great success. Enormous amounts of junk, trash, and litter were taken to the official dump. Most rewarding was the large number of people who participated, many contributing over half a day of precious weekend time!

The results were very real. Besides the obviously cleaner appearance of the shorelines and roads, many felt that we had made a good beginning in reinstating the true nature of our beautiful lakes. YOU can make a difference! Join us!!

NOTE TO ALL MEMBERS

Should any CLPA member need any extra reward signs, call Doris McIntosh, phone 835-4103.

CANADA LAKE STORE NEWS

The last piece of colored ice from our snow sculpture, next to the front porch of the store, has finally melted. The Fielding family, with the help of Judy Aldinger from Green Lake and her son, Fritz, sculptured a large Walt Disney Dumbo for a local snow sculpture contest. It was a challenge this year to create a sculpture because of the extreme weather conditions we encountered. Dumbo had the distinction eventually as the sculpture with the greatest longevity.

Now that the ice is out of the lake as of May 2nd and people are returning to their summer homes we are gearing up for the summer season in the store and in the marine business.

We displayed our Mercury outboard motors, Blue Fin boats, Kayot pontoon boats, and Alcott sailboats during two successful boat shows at the Clifton Country Mall and the Amsterdam Mall in February and March. Kevin Bell, Bill's full-time mercury mechanic, will be working with him on service work in the marine business. Also we are pleased that Danny Sullivan of West Lake will be working with Bill on camp maintenance all year round. A fine group of hard working people will be helping us serve you in the store this summer. They are Jackie Kelly, Lisa Kochheiser, Bruce McLelland, Mary Ann Silvernail, and John Widdemer.

A major renovation was made last fall when we leveled the front porch of the store and replaced the steps and railings. Again we are trying to maintain a variety of products for your summer shopping convenience. If there is something special you would like please ask us to order it for you.

There will be a floating cinema program sponsored by the Fulton County Arts Council presented on Canada Lake July 30 and 31st. Watch for more details to be posted at the store.

The post office operations will resume again this summer on June 12th. We welcome our present patrons again and any new patrons to make use of the services available in this contract postal unit.

It is our pleasure to serve you for another summer season. We hope you all will have a very enjoyable vacation at Canada Lake.

Bill & Dorothy Fielding

**CAROGA HISTORICAL ASSOCIATION

Don't forget Canada Lake "Greenup Day" July 18. Contact Courtney Young for details - phone 835-3701

THE LIMING OF GREEN LAKE

On August 28, 1981 26 tons of bulk agricultural lime were distributed into Green Lake to counteract the effects of acid deposition. Perhaps the most important outcome of the liming project was that it demonstrated the viability of using a volunteer work force. The amount of public concern, support and assistance was far beyond even the most optimistic expectation.

The actual liming was a culmination of over a year's activity. Investigation into the feasibility of liming included taking pH samples,

calculating the flow-through rate, determining the size of the lake, establishing contact with the Department of Environmental Conservation (D.E.C.) for advice and possible funding, publicizing the acidity problem in our area, and securing local support for such an undertaking.

On Saturday July 25th the work site was prepared as several dozen volunteer workers dredged the channel and cleared rocks and brush from the loading and lime deposit sites. The lime arrived one morning in late August as the Fisheries' men were completing their fish survey of Green Lake. The liming itself was planned for Friday August 28-Sunday August 30 but was completed on the 28th by a work force of 47 area campers and residents ranging in age from 4 to 70. The process involved modifying 4 jon boats and barges, loading them from wheelbarrows, transporting the lime from the loading site into Green Lake, and shoveling it off the boats as they travelled in a predetermined pattern on the lake. As there was no way of predicting how long it would take to distribute 40-50 loads, it came as a pleasant surprize that the liming went so quickly. In fact progress was slowed down and then halted for a time in order to have lime left to spread for WRGB's camera.

The liming of Green Lake was experimental in several senses. One measure of success of such a project is reflected by the pH. It is impossible to know in advance to what extent a liming operation will be effective, in terms of pH, in a given body of water. The pH level of Green Lake, as determined by chemist Parks Landis of Canada Lake in 1980, showed a range of 5.1-6. Results after liming, as tested by D.E.C. Raybrook, showed a pH range of 7.04-7.10 through the water column. In the words of D.E.C.'s Martin Pfeiffer, an expert in the field, "the results are very satisfactory, especially in light of the high alkalinity." The pH will be monitored periodically to determine when further maintenance liming might be necessary. Small-mouthed bass will be stocked in the late summer and their survival will be another indicator of how well the pH is holding, as they are very sensitive to acidity.

Although the State has been liming for some years, our project was unique in that it was done entirely with volunteer workers. By demonstrating the viability of a volunteer labor force, our C.L.P.A.-sponsored liming operation helped the State to recognize the

A group of volunteers participating in the liming of Green Lake.

potential within the Adirondack Park of groups like our's. This is important as the State's long-range liming program has been limited due to lack of funds and the reliability of volunteer work forces for such undertakings previously unproven. The C.L.P.A. has gained recognition as a group whose commitment to an environmental issue such as the effects of 'acid rain' goes beyond the level of concern to that of action.

Although it is not possible to thank individually the many people who assisted in many ways, your efforts were impressive and appreciated. Come to the Annual Meeting and see the slide presentation of the liming of Green Lake.

What next? The possibility is being investigated of feeder-stream liming techniques as a means of maintaining Green Lake's pH, as well as how such methods would relate to Canada Lake. Other local liming projects also are being considered. However, immediate action should be taken in the form of contacting your Representative and Senator in Washington to urge support for a strong Clean Air Act. Various bills are in committee at the moment, and *Environmental Action* recommends "your representative to support Waxman's efforts to pass a strong Clean Air Act, and your senators to support the Senate environment committee bill."

HAPPY 60th/30th BIRTHDAYS, C.L.P.A.

A meeting of Canada Lake lot owners was held on August 26, 1922 and a committee was needed to draw up a Constitution and By-laws for a 'permanent organization of lot owners on or near Canada Lake'. The Constitution and its By-laws were adopted on September 2, 1922, with the stated purpose of the Association being 'united action in the protection of the property of the members, for stocking said lakes and the streams connected therewith, for the enforcement of the laws of the State relating to fish and game, and for such other purposes as may be for the mutual advantage of the property owners on or near Canada Lakes'.

It is interesting to note that at that September meeting the executive committee was 'instructed to make an investigation of the rights of the lot owners with respect to the raising of water in Canada Lake' - a persistent issue - and that annual dues for 1922-23 were set at \$5.00.

The records show no further action, beyond the initial membership rolls, until August 29, 1952. The minutes of that meeting, opened by Alfred Dennison who had served as secretary in 1922, indicate that there was \$660. in the Association account 'which would be available to a continuing organization', and identified the living members of the old association who were in attendance. Issues facing the reorganized association at that time included maintenance and use of the island and control of speed boats.

In 1953 the C.L.P.A. elected to become a corporation with stated objects similar to those delineated in the 1922 Constitution.

Emily-Ann Langworthy
Secretary
C.L.P.A.

IN MEMORIAM

During the past year we learned with deep sorrow the deaths of:

Peg Adams
Roy Loomis
William Roberts
